

COVID-19 - Building Rating Comparison

Unlike anything we have ever seen before in our lifetime our buildings, workplaces, and our behaviors are being impacted by the aftermath of COVID-19.

What can we be doing now to prepare our facilities and our people?

WELL, LEED, Fitwel and Arc recently released new certifications, credits and platforms to prepare the built environment for COVID-19, aiming to ease the minds of owners and occupants. Clayco and LJC is committed to supporting our clients during these times. LJC's in-house group of high-performance and sustainability experts are ready to assess which of these options is right for your project.

1 WELL HEALTH-SAFETY RATING

The WELL Building Standard is the premier tool for buildings, interior spaces and communities seeking to implement, validate and measure features that support and advance human health and wellness. **Prioritize health and safety in a post-COVID-19 world and beyond with the third-party verified WELL Health-Safety Rating.**

2 LEED - SAFETY FIRST PILOT CREDITS

LEED (Leadership in Energy and Environmental Design) is a global green building rating system and the recognized standard for the design, construction and operation of high-performance green buildings and neighborhoods. **The credits outline sustainable best practices that align with public health and industry guidelines related to cleaning and disinfecting, workplace re-occupancy, HVAC and plumbing operations.**

3 FITWEL - VIRAL SAFETY MODULE

Fitwel is the premier certification system for optimizing buildings to improve health and productivity outcomes through targeted improvements to design and operational strategies. **This Module provides certification of company-wide policies that represent best practices in viral mitigation. It is an overlay to Fitwel certification at the asset level to recognize implementation of these policies.**

4 ARC RE-ENTRY

Arc is a single platform to measure and score operational performance for any space or building. **In the wake of the global COVID-19 pandemic, Arc has created a set of resources to assist owners and facility managers with re-entering their buildings and facilities**
